NO JOB TOO BIG OR TOO SMALL - WE DO THEM ALL!

Conveyors, Inc. has become the source for material handling equipment in a wide variety of industries including pulp and paper, agriculture, water treatment, rubber, steel, chemicals, aggregates, food processing and many others.

Our Sales and Engineering staff are prepared to help you with your materials handling applications.

Conveyors, Inc. has established a solid reputation for providing high quality equipment and extensive levels of service. As a result, we are able to fulfill a wide range of customers' needs.

Screw Conveyors can be provided in a variety of sizes ranging from 4" to 36" diameter and as large as 84" diameter with flights up to 2" thick.

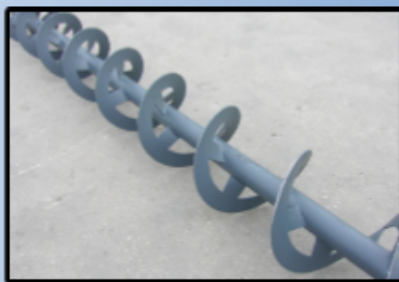

Units can be furnished in carbon steel, stainless steel, abrasion resistant plate, galvanized, aluminum, hastalloy, monel, inconel, and other alloys.

Mixers or Blenders are used in applications where batch mixing is required. Standard sizes up to 90" diameter can be provided in both ribbon and paddle type mixers for capacities up to 660 cubic feet per batch.

Continuous Mixing can be obtained by using cut flights, cut and folded flights or paddles.

Bucket Elevators are available for many industrial applications, with standard sizes handling up to 27,000 cubic feet per hour.

Both round and flat bottom Drag Conveyors are available as well as HV Drags which can move product over, under or around other equipment when space is limited.

Chutes and Hoppers can be provided to complete the handling and storage process.

Organized in 1974, Conveyors, Inc. utilizes more than 100,000 square feet of manufacturing space on ten acres in the Mansfield, Texas Industrial Park. Being in the Dallas/Fort Worth area provides access to shipping methods for distribution of products throughout North America and worldwide.

We pride ourselves in offering the highest quality products and services at the most competitive prices. Our Sales and Engineering staff stands by to solve your bulk material handling needs whatever they may be.
